AMERICAN TROOPS IN FRANCE

SECOND CONTINGENT LANDS TODAY AND GOES INTO CAMP

MANHATTAN CON. IN HIGH GRADE
WORTH OVER A DOLLAR A POUND

(By W. M. Gotwaldt)
Manhattan Consolidated Mining company Reorganized has made one of the most thrilling strikes in the history of Nye county—and that is drawing a big bow.

When the find was made last evening the telephone office at Manhattan was a bedlam, everybody downtown being eager for his turn at the wire to flash out the good news.

"Man. Con. has come in at last!" was the glad tidings that spread about the camp. Probably one hundred people hurried to the collar of the shaft to see the rich stuff that was coming from the depths.

The gold was there, plainly visible in the rock, contrasting brilliantly with the blue line, the white cal-

caceous quartz, the red and brown oxide and the black manganese. There was no question as to the long awaited strike having actually happened, and having happened better than the fondest anticipations.

This morning the real wealth of the development became more fully apparent when the back holes were shot and at this writing there is fully three feet of jewelry ore exposed.

Mark Page, superintendent of the "Con," came over from Manhattan this afternoon with about 100 pounds of ore, any piece of which will assay better than a dollar a pound, a very low average for the entire block.

When he made the find yesterday he immediately notified the officials

of the company which sent Mr. Book and Mr. Douglas to the Pine Tree camp as fast as their gasoline would burn.

The discovery was made on the footwall side of the vein, which was opened for a width of 25 feet on the 300 level. The general average of the hanging wall side is over \$30 a ton. Nearing the footwall the values steadily gained until the oxidized ore was reached.

Mr. Page this afternoon turned the crosscut into a footwall drift, will later become a crosscut to the hanging, thus proving up the ore body on three sides.

The sales of Manhattan Con. this morning to 40,000 and was followed this afternoon by sales aggregating 27,000.

Lumber Jacks
Sent to England

(By Associated Press.)
LONDON, June 27.—Ten units of American woodmen, sent from the New England states to turn the forests of the United Kingdom into lumber, arrived today.

The complete equipment of the woodmen caused surprise. They were all ready to set up sawmills and begin work. The only necessity is the raw food which they cooks will prepare.

STRIKE ORDER
GIVEN AT BISBEE

OPERATORS SAY THEY WILL
CLOSE THEIR MINES BEFORE
CONCEDING DEMANDS

(By Associated Press.)
BISBEE, Ariz., June 27.—A test of strength of the recently organized Metal Mine Workers Industrial Union is expected today when a strike order issued at a mass meeting last night is to become effective. Five thousand are employed in the copper mines. The operators announce they will close the mines before meeting the demands, charging the union is made up largely of industrial workers.

Liner Mongolia
Sunk by a Mine

(By Associated Press.)
BOMBAY, June 27.—The Peninsular and Oriental liner Mongolia struck a mine off Bombay on June 23. Passengers and crew have arrived here and the mails are believed to be lost.

PRESIDENT
MAY MAKE
NATION DRY

FOOD LAW AMENDMENT GIVES
CHIEF EXECUTIVE ARBITRARY
BUTRYARY POWER

(By Associated Press.)
WASHINGTON, D. C., June 27.—Administration officials disclaim any knowledge of how the president looks on the prohibition amendment, but believe he is not opposed to its adoption.

The senate agricultural committee adopted the house prohibition provisions with modifications this afternoon and recommended the food bill for passage.

Although the president did not indicate his attitude toward prohibition, it is believed he would agree with Hoover, who announced he looks on prohibition from the practical point of view of whether it is more important to use food stuffs exclusively for food.

The agriculture committee's provision would prohibit the manufacture of all intoxicants, including both distilled spirits, malt beverages and wines, but would allow the president discretion to permit the further manufacture of wine only.

One section would authorize the president to take over any or all distilled spirits now in bond, upon payment of a reasonable and just price to distillers for redistillation into alcohol for war, industrial, or other non-beverage purposes.

The 30-day proviso is designed to give time to the president to decide whether further manufacture of beer, wines and light beverages shall be permitted and for consumers and manufacturers to prepare for what the president may decide.

Should the president not exert his authority as to exempt malt, fermented and beverages from the sweeping prohibition provisions and should commander distilled spirits in bond, "home dry" national prohibition, of both manufacture and consumption would result, entailing a loss of federal revenue estimated at between four and five hundred millions of dollars and new taxation measures as well as local revenue reductions.

OPERATORS WILL
FIX COAL PRICES

AGREE TO SELL AT A FAIR AND
REASONABLE RATE TO
CONSUMERS

(By Associated Press.)
WASHINGTON, D. C., June 27.—Four hundred coal operators representing the great fields of both bituminous and anthracite pledged themselves to sell their product at a fair and reasonable price to be fixed with the approval of the defense council's coal commission by several special commissions, from each mining state.

These commissions are also authorized to confer with the defense council's commission "to the end that production be stimulated and plans be perfected to provide adequate means of distribution."

The operators' action is the result of an all day conference. The meeting was called by the defense council's committee for a discussion of methods of reducing the price of coal both to the government and the general public and was presided over by Frank S. Peabody, of Chicago, chairman of the committee.

NORWAY WELCOME
THE RED CROSS

(Correspondence Associated Press.)
CHRISTIANA, Norway.—The Norwegian Red Cross has extended an invitation to the United States an invitation to send to Norway for a "rest cure" any of its nurses and Red Cross workers who may become ill or worn out in the course of their work in northern France.

In Norway any such American convalescents will be the guests of the Norwegian Red Cross and will be sent to the most suitable Norwegian health resort for a period of six weeks or more at its expense.

Similar invitations were long ago extended to the European belligerents, although Germany and Russia are the only ones who have sent nurses here in response. Germany has thus far sent 500 nurses to Norway, while 65 Russian nurses are now here for a month's vacation.

(By Associated Press.)
PETROGRAD, June 27.—The congress of workmen and soldiers delegates of all Russia overwhelmingly resolved to reject a separate peace.

Under Radoslovich may be compelled to purchase concessions for which he went to Berlin, by the sacrifice of American relations as part payment.

Bulgaria, having got possession of all advantages included in the present stage of its ambitions, in Macedonia and Thrace and finding the burden of running even a minor power share of the war a growing menace as to its financial future, strongly advocates a German peace movement.

ALLY

(By Associated Press.)
COPENHAGEN, June 27.—Although Bulgaria is opposed to breaking relations with the United States, fear is expressed that Pre-

SAFELY THROUGH THE SUBMARINE
ZONE DIRECT FROM THE U. S.
RECEIVED WITH WILD APPLAUSE

(By Associated Press.)
FRENCH SEAPORT, June 27.—American troops have arrived. The second contingent disembarked this morning.

The troops landed amid the frantic cheers of people who gathered hours before anticipating a duplication of yesterday's surprise when the first contingent arrived.

The port was decked with flags when it was learned that the troops had safely passed the submarine zone. The troops were taken to a nearby camp where Major General William Siebert installed them. Thence they go soon to a point near the front. Additional troops are expected tomorrow.

All the troops were in excellent shape and enthusiastic over their successful trip and reception and eager for action.

General Pershing is expected here tomorrow.

(By Associated Press.)
WASHINGTON, D. C., June 27.—The epochal landing of troops in France cannot be fully discussed now.

NEVADANS
LEADERS IN
RECRUITING

ENROLLS NEARLY FOUR TIMES
HER QUOTA IN THE REG-
ULAR ARMY

(By Associated Press.)
WASHINGTON, D. C., June 27.—Responses to President Wilson's proclamation calling for 70,000 volunteers for the regular army beginning the present week are coming slowly. Only 1461 were obtained yesterday, according to returns from all parts of the country.

Twenty-six states reported each had secured under ten recruits yesterday, three states none at all.

Nevada has set the mark for the rest to shoot at, with her volunteers exceeding her quota by almost four to one. She was called on for 162 and has enlisted 630.

Oregon and Utah are neck and neck for second place, with 200 per cent over the enlistment. Vermont is at the other extreme, with 79 enlisted in a quota of 710.

While the figures nearly doubled the low mark for daily recruiting set last week, officials were much concerned over the absence of a rush to join the branch of the service certain to be first to face the Germans in France. It is hoped that as recruiting week proceeds and with the tremendous campaign the newspapers of the country are conducting, the daily total will be swelled to four or five thousand men.

New York showed the results of the campaign that has been waged by the metropolitan newspaper. A total of 325 men was obtained in that city. Illinois, despite the fact that the state's quota is nearly 1000 over recruited already, added 142 men during the day. Pennsylvania supplied 147; Massachusetts, 85 and California, 68.

The total number of war volunteers obtained since April 1 is now 125,400. This means that the great majority of the regiments are close to full war strength, but it does not provide the necessary reserves to keep them at that strength.

TURN BACK CLOCKS
ON APRIL FOOLS DAY

(By Associated Press.)
WASHINGTON, D. C., June 27.—The daylight saving bill turning clocks forward one hour beginning next April passed the senate today.

The harbor was dotted with convoys.

The streets are filled with soldiers in khaki and blue jackets. A great number of trucks are transporting immense supplies to the camp where the troops are concentrating.

(By Associated Press.)
WASHINGTON, D. C., June 27.—The American troops will be entirely independent of the command under Pershing, just as are the British troops. After a period of preparation behind the lines they will take their places on the battle front and probably will be seen carrying the Stars and Stripes in assaults which are steadily driving the Germans from France and Belgium.

(By Associated Press.)
WASHINGTON, D. C., June 27.—The epochal landing of troops in France cannot be fully discussed now.

BUTTE MINES
MUST SHUT DOWN

MORE MINERS APPEAR, BUT ME-
CHANICS WILL NOT
TAKE WORK

(By Associated Press.)
BUTTE, Mont., June 27.—More miners appeared for work today, but the mechanics called out by the strike order failed to appear. It is expected that the mines will close down within two days due to lack of tools.

All boltermakers and machinists employed by the four largest mining companies and one mill in the Butte district, were called out yesterday by their unions, who charged that the electrical work was being done by non-union men. At some of the mines the blacksmiths also quit.

The companies affected by the strike order are the Anaconda Copper Mining company, the East Butte Copper Mining company, the Elm-Oru Mining company, the Timber Butte Mining company, and the Butte and Superior Mining company.

W. H. Rodgers, commission of conciliation of the federal department of labor, has had his first conference with the employers. All mining companies of the district were represented and the employers' position was stated. Mr. Rodgers was informed that the Metal Mine Workers' Union would under no circumstances be recognized, because, the employers stated, it is controlled by the I. W. W.

The infantry activity in the region between Soissons and Rheims has given way entirely to artillery duels in the sector of Moulin de Laffaux and a continuance by the Germans of the slow demolition of Rheims with gun fire. Monday night saw an engagement of considerable proportions northwest of the Hurtelise Farm, where the French captured German first line trenches, and took more than 300 prisoners. Berlin is admiring the rain by the French tanks the German crown prince's loss somewhat by the assertion that in counter attacks his army recaptured the greater portion of the lost terrain.

AMERICAN CLIPPER SHIP
SUNK BY A BOMB

(By Associated Press.)
LONDON, June 27.—The American sailing ship Galena was sunk by a bomb off the coast of France June 25th without casualties. Fifteen survivors were taken to Brest.

HECKLERS MAY
TAKE A CHOICE

(By Associated Press.)
WASHINGTON, D. C., June 27.—Six suffragettes arrested for picketing and flying banners were convicted of violation of a city ordinance and given the choice of \$25 fines or three days in jail. They have not decided which to accept. Mabel Vernon, of Reno, is among the number.

RECRUITS FOR BIG DRIVE

F. E. Koyle has taken charge of the local recruiting station and will endeavor to interest young men in the service. This morning he received a message urging him to prompt action, in accordance with instructions about the big drive.

SACRAMENTO MYSTERY

(By Associated Press.)
SACRAMENTO, Cal., June 27.—The finding of a woman's silk dress, hat and sweater under a lounge in the women's reception room of the capitol has furnished the police with a mystery.

WASHINGTON BONE DRY
ON SATURDAY NIGHT

(By Associated Press.)
SEATTLE, June 27.—After twelve o'clock Saturday night no liquor can be shipped into Washington, according to District Attorney Allen, as the Reed amendment passed by congress becomes effective then.

MOONEY CASE BRINGS PROTEST
FROM JUROR ABOUT TREATMENT

(By Associated Press.)
SAN FRANCISCO, June 27.—Twenty two witnesses were put on the stand by the state yesterday in an attempt to prove that Mrs. Rena Mooney whose trial on a murder charge grew out of the bomb explosion here last July, was actively involved in an alleged anarchistic conspiracy against the government which the prosecution contended culminated in the bomb murders and the killing of ten persons.

Superior Judge Emmett Seawell overruled repeated objections on the part of attorneys for the defense who tried to keep out the evidence.

The alleged activities of Mr. and Mrs. Mooney in attempting to start a street car strike in San Francisco last July were testified to by a number of witnesses. The dynamiting of three electric power towers near San Francisco on the night of June 18, 1916, with which the state declared it would connect some of the defendants in the bomb cases, figured in the testimony.

Other features of the day's proceedings were the objections made

by Juror Frank H. Channing to the opening of his mail by Judge Seawell, and the infliction of a \$10 fine on Attorney Edward V. McKenzie, of the defense, for contempt of court.

After Channing made his complaint, Judge Seawell said:

"I must plead guilty to opening your letter."

"It wasn't my understanding when I became a juror that I was to be treated worse than a criminal," said Channing. "I must insist that it does not happen again."

Judge Seawell said the opening of mail was necessary. It was finally stipulated between counsel on both sides that jurors could receive their mail unopened.

McKenzie was found in contempt of court and fined after he had argued with the court over the manner in which he was making objections to testimony.

"You can't sit here and sneer, and grunt and groan at the rulings of this court," said Judge Seawell.

The afternoon was taken up largely with testimony regarding the attempted car strike.

CUTTING DOWN
RATIONS OF FAT

GERMANY OFFICIALLY STATES
THAT SWEETS MUST TAKE
PLACE OF FATS

(By Associated Press.)
COPENHAGEN, June 27.—Germans are officially informed that rations of fat next winter will be less than last. Marmalade and preserves must make bread palatable. The bureau charged with distribution has divided the year into nine marmalade months and three compote months.

RED CROSS RAISES
\$114,000,000

FULLEST PUBLICITY WILL BE
GIVEN ALL BUSINESS OF
THE ORDER

(By Associated Press.)
WASHINGTON, D. C., June 27.—The nation's contribution to the Red Cross in response to the call for \$100,000,000 war fund were estimated at \$114,000,000 tonight by Henry P. Davison, chairman of the Red Cross war council.

"This figures assumes," said Mr. Davison, "stockholders in companies which have declared special dividends amounting to some \$20,000,000 will turn their dividends over to the Red Cross."

The policy of the Red Cross in expending this big sum, Mr. Davison said in a statement, thanking the millions of contributors, will be to conduct all the work with the utmost publicity and to take the public as completely as possible into its confidence.

Primarily the fund will be devoted to needs of American soldiers and sailors and secondarily to relief work among the allies.

Mr. Frank Belling will head the Red Cross commission of more than 20 experts to be sent to Russia to study needs there, Mr. Davison announced.

GRAFT RING NETS
OFFICIAL BIG SUM

CHINESE INSPECTOR AT ANGELS
ISLAND HELD ON CHARGE
OF MALFEASANCE

(By Associated Press.)
SAN FRANCISCO, June 27.—Suspension of William Gassaway, Chinese inspector of Angel Island immigration station on charges of malfeasance in office and juggling records, was confirmed by the commissioner of immigration Edward White. It is alleged that the "graft ring" netted thousands of dollars by the illegal admission of Chinese.

LOWER PRICES ON
WAR MATERIALS

PRESIDENT WILL INSIST ON
CUTTING PROFITS ON ALL
GOVERNMENT CONTRACTS

(By Associated Press.)
WASHINGTON, D. C., June 27.—President Wilson's action of yesterday gives support to a demand gathering weight since the war began that the government obtain lower prices on war materials. Already the trade commission has been asked by Secretary Daniels to ascertain the costs of all basic materials used by the navy, including copper, steel, iron, coal and other fuel.

The movement for lower prices is reflected in a proposed re-arrangement of committees of the council of national defense to provide for a buying commissioner who would coordinate government purchases and an investigation by the senate interstate commerce committee to determine if government control of raw materials, including price fixing is necessary.

Many officials of the government are loath to see commanding respect for generally to obtain reasonable prices on government purchases and many believe a purchasing system under the defense council would solve many of the problems now faced.
